## ORGANIGRAMM

Fleischrinder Austria (FLRA) ist für unten angeführte Fleischrinderrassen als Zuchtorganisation in den Bundesländern Burgenland, Kärnten, Niederösterreich, Oberösterreich, Salzburg, Steiermark, Tirol und Vorarlberg anerkannt. Mittels Kooperationsvereinbarungen wurde festgelegt, dass die Betreuung der Zuchtbetriebe durch den, im jeweiligen Bundesland zuständigen, Zuchtverband erfolgt. Die Ergebnisse der Leistungsprüfung (Ergebnisse der Geburts-, 200- und 365-Tage Wiegung, Kalbeverlauf, Zwischenkalbezeit und andere Managementkennzahlen sowie der Kuh und Stierbewertung) werden in diesem Bericht für die Gesamtpopulation der unter Fleischleistungsprüfung befindlichen Tiere der jeweiligen Rasse und Tiergruppe angegeben. Die Ergebnisse jener Rassen, für die Fleischrinder Austria als Zuchtorganisation anerkannt ist, werden einzeln für die Gesamtpopulation (FLRA) sowie nach den Unterabteilungen der einzelnen betreuenden Verbände angeführt. Die detaillierten Angaben zu der Zuchtpopulation sind ebenfalls enthalten.

Mittels Kooperationsvereinbarung ist die Betreuung der Züchter:innen den unten angeführten Mitgliedsverbänden übertragen: Dies betrifft insbesondere folgende Punkte des Zuchtprogrammes: Stierbewertung, Kuhbewertung und den Punkt 6.7. (Aufgaben des Zuchtverbandes), Veranlassung von Abstammungsüberprüfungen, Bearbeitung von Fehlerlisten im Sinne von Plausibilitätsprüfungen gemäß Zuchtprogramm sowie Ausstellung von Zuchtbescheinigungen (lautend auf die Zuchtorganisation Fleischrinder Austria).

Die fachlichen Betreuer werden gemäß der Geschäftsordnung des Rasseausschusses vom Vorstand der Fleischrinder Austria ernannt. Sie sind für die Betreuung der Rasseausschüsse, die mit folgenden Aufgaben vom Vorstand betraut wurden, verantwortlich:

- Beratungen über rassenspezifische züchterische Fragen und Bestimmungen (Zuchtprogramm) und diesbezüglichen Anträgen an den Vorstand
- Auswahl hochwertiger Vätertiere bzw. Sperma oder Embryonen.
- Erfüllung der direkt vom Vorstand der Fleischrinder Austria zugewiesenen Aufgaben

Jeder Mitgliedsverband kann—sofern er die Rasse im Auftrag von Fleischrinder Austria betreut—eine/n (bzw. bei einem Rasseanteil von über 40 % zwei) Vertreter:innen in den Ausschuss entsenden. Auf [www.fleischrinder.at/rassen](http://www.fleischrinder.at/rassen) sind die Kontaktdaten zu den entsandten Personen bei der jeweiligen Rasse ersichtlich.

## Fachliche Betreuung der Generhaltungsrassen

Für die Generhaltungsrassen gibt es jeweils eine in ganz Österreich zuständige verantwortliche Zuchtorganisation (=VO).

Die VO ist für jegliche Fragen hinsichtlich Zuchtprogramm verantwortlich. Bei den Rassen Murbodner, Pinzgauer und Original Braunvieh sind nach aktuellem Stand auch andere Zuchtverbände von der VO mit bestimmten Aufgaben betraut.

Dieser Bericht umfasst für die Rassen Ennstaler Bergschecken, Kärntner Blondvieh, Murbodner, Pustertaler Sprinzen, Tux-Zillertaler sowie Waldviertler Blondvieh alle gemäß der Zuchtprogramme jährlich darzustellenden Ergebnisse der Leistungsprüfung, sowie weitere Ergebnisse, die im Zuge der Leistungskontrolle erhoben werden. Die Zahlen zur Zuchtpopulation, effektiven Populationsgröße, dem Inzuchtgrad sowie der durchgeführten Herdebucheinstufungen (denen die Beurteilung des Phänotyps zugrunde liegt) sind ebenfalls angeführt.

| Rasse                  | Verantwortlicher Zuchtverband  |
